

SCANX 12® PODIATRY DIGITAL IMAGING SYSTEM

WHO WILL YOU TRUST WITH YOUR MOVE TO DIGITAL X-RAY?

With thousands of healthcare installations worldwide,
ALLPRO knows what Podiatrists need.

 **ALLPRO** IMAGING
THE IMAGING EXPERTS

PRESENTING SCANX[®] 12

SCANX 12 IS AN INNOVATION IN DIGITAL IMAGING SYSTEMS, ENGINEERED TO RAPIDLY PRODUCE DIAGNOSTIC QUALITY IMAGES THAT ARE READY FOR VIEWING IN JUST 35 SECONDS.

X-rays are an essential part of your practice. They require a substantial investment of your time, space and money. Finally, ScanX technology has delivered **the ideal solution** for the podiatry office.

SCANX 12 STREAMLINES THE ENTIRE IMAGING PROCESS

Here's How It Works.

ScanX 12 is a computed radiography system (CR). Replacing film and intensifying screens, CR utilizes phosphor storage plates (PSP) which are coated with an x-ray sensitive phosphor material. PSP's are durable and reusable thousands of times. Upon exposure to x-rays, the plate stores a latent image which is scanned by ScanX 12. Easy to use certified imaging software enhances the digital image to aid you in diagnosis. Save images to your computer for easy retrieval and huge space savings in your office.

PSPs are available in both 8" x 10" and 10" x 12" sizes and can be used with your standard cassettes (without intensifying screens).

....Plus It Works the Way you Work.

Use your existing x-ray equipment to expose the plate, the same way you expose film. Simply insert the plate into ScanX 12 and in a mere 35 seconds the image is ready for viewing.

Your workflow remains the same.
Simply expose a reusable plate instead of film.

FAST...AFFORDABLE...FULL 10"x12" JUST RIGHT FOR PODIATRY.

IMAGINE THE TIME, EFFICIENCY AND CONVENIENCE YOU'LL ADD TO EACH DAY

- Never again deal with film, chemistry, processor maintenance or duplicating film. No need for a darkroom...ScanX 12 operates in normal room light.
- Save space with ScanX 12's 14"x14" footprint.
- View two images exposed on one 10"x12" plate in just 35 seconds.
- Enhance images to maximize the diagnostic information.
- Educate patients; quickly and thoroughly present treatment plans.
- ScanX technology saves you time and space with easy digital file storage and archiving. Retrieve and review patient x-rays, send them to a colleague or burn a copy on CD...at the push of a button.
- Radiographic technique is consistent with green sensitive film. Users of blue sensitive film can reduce exposure by over 50%.

MORE ACCURATE DIAGNOSES, MORE EASILY DETERMINED

- View both skeletal and soft tissue with one exposure.
- Images can be magnified, inverted and sharpened.
- Change contrast and brightness; window level.
- Measurements may be made by using line segment and angle measurement tools.
- An enhanced image helps you to educate your patients and to visualize your treatment plans.

WHAT DOES FILM ACTUALLY COST YOU?

	12 FILMS/DAY	15 FILMS/DAY
PER FILM COSTS:		
Film (10"x12")	\$ 1.00	\$ 12.00
Chemistry (Replenisher)	\$0.50	\$ 6.00
Envelope	\$0.20	\$ 0.80
Total Per Film Costs	\$18.80	\$23.50
X 250 days/ year	\$4,700.00	\$5,875.00
Add 15% for duplicating and retakes	\$5,405.00	\$6,756.00
MONTHLY COSTS:		
Chemistry	\$15.00	
Processor Cleaning Labor	\$30.00	
Cleaning Supplies	\$15.00	
Waste Disposal	\$50.00	
	\$110.00	
12 months/year	\$ 1,320.00	\$1,320.00
YEARLY COSTS:		
Darkroom (6'x6')	\$720.00	
Processor Repair	\$250.00	
	\$970.00	\$ 970.00
Total Yearly Cost of Film Processing	\$7,695.00	\$9,046.00

Left to right: Enlarged image displaying Cobb angle, colorized image and image inversion.

12" IMAGE.

...PLUS VALUABLE RECORD-KEEPING AND COMMUNICATION TOOLS

- Maintain notes and images in one file.
- Annotate image files.
- An enhanced image helps you to educate patients and to visualize your treatment plans.

HOW TO GET UP AND RUNNING

A complete system consists of the ScanX 12, ScanX 12 eraser, certified imaging software and a computer. ScanX 12 is sold, installed and serviced through ALLPRO IMAGING's long standing nationwide network of authorized dealers. Ask your dealer about TigerView Certified Imaging Software. To locate your authorized ALLPRO IMAGING dealer, call direct: **800.247.8324 ext 5611.**

ENGINEERED AND MANUFACTURED IN THE U.S.A.

ALLPRO IMAGING is a manufacturer of digital imaging systems and film processors for the healthcare profession.

ALLPRO IMAGING is an affiliate of AirTechniques with a heritage of forty-two years of leadership in the medical and dental industries.

ScanX 12 is designed, sized, and priced just right for podiatry. Plug & Play set-up. Simple operation. Software specifically designed for podiatry imaging.

1. Take an x-ray as you normally do, using a reusable phosphor plate in place of film.

2. Easily feed plate into the ScanX 12.

3. Have the image available for viewing in just 35 seconds.

4. Enhance the image to optimize detail for easier diagnosis and consulting.

5. Save the image to your computer, annotate it, burn a CD or send over the internet to a colleague.

THE IMAGING EXPERTS

SWITCHING TO DIGITAL PROMPTS IMPORTANT QUESTIONS:

- **Will the results be diagnostic quality?**

Unlike film, which is a static image, digital imaging allows you to maximize the diagnostic information.

- **Will it disrupt my workflow?**

No. Simply replace your film with any of our full 10"x12" or 8"x10" plates.

- **I need the benefits of ScanX NOW. Are there any reasons I should wait?**

No. ScanX is already an advanced technology; costs have remained steady and savings will be experienced immediately.

- **Where will I get help?**

ALLPRO IMAGING products are sold, installed and supported by our long-established, highly trained, authorized dealer network.

**FOR THOUSANDS OF HEALTHCARE PROFESSIONALS,
SCANX DELIVERED THE RIGHT ANSWERS.**

SCANX® 12

SPECIFICATIONS

Dimensions (WxDxH):	14" x 14" x 28"
Weight:	55 lbs.
Electrical:	115V, 60 Hz
Laser Classification:	Class 1 Laser Product, Compliance with FDA HHS 21 CFR 1040.10 and IEC 60825-1
Imaging Media:	Phosphor Storage Plates 10" x 12", 8" x 10"
System includes:	Power Cord and Computer Connector Cord
Software:	Not included.

SCANX® 14 (WITH BUILT-IN ERASER)

SPECIFICATIONS

Dimensions (WxDxH):	24" x 22" x 64"
Weight:	120 lbs.
Electrical:	115V, 60 Hz
Laser Classification:	Class 1 Laser Product, Compliance with FDA HHS 21 CFR 1040.10 and IEC 60825-1
Imaging Media:	Phosphor Storage Plates 14" x 17", 10" x 12", 8" x 10"
System includes:	Power cord and computer connector cord, two each 14" x 17" cassettes, plates and plate protectors, one each 10" x 12" cassette, plate and plate protector.
Software:	Software included.

ERASER

SPECIFICATIONS

Dimensions (WxDxH):	16-1/4" x 13" x 4-1/4"
Weight:	18 lbs.
Electrical:	115V, 60 Hz
Erasing Surface Size:	Erasing area 10" x 12"
Phosphor Storage Plate Capacity:	All sizes, up to 10" x 12"
Light Output:	25,000 lux minimum

COMPUTER SYSTEM REQUIREMENTS / RECOMMENDATIONS FOR ALL SYSTEMS

CPU Speed:	2.8 GHz Pentium 4
Operating System:	Windows 2000 Service Pack 4 or later, or XP Pro Service Pack 1a or later
RAM:	1 GB
Hard Drive:	120 GB
CD ROM Drive:	48X
Monitor:	2 MP 20.1" Class Monochrome LCD or SVGA Monitor (1024x786 resolution)
Video Display Adapter:	32 MB RAM
Keyboard, Mouse:	Standard
Backup Device:	Recommended for daily saving
External Surge Protector:	Recommended
USB Port:	Must be USB 1.1 or higher
Printer:	Optional
